to Relevant Business Facts for Suppliers

Collaborate with Usable Feedback
with Usable Feedback for Retailers, Suppliers, and Sales Partners

Help Suppliers Forecast
for timely and accurate Inventory Replenishment

Create a Portal
on a Corporate Website for remote employees & trading partners

Why i-Minder:

- It is a single point of support for many users, simplifying IT
- Full power of the Salient Interactive Miner (SIM)
- Delivered over the web via thin client

While Salient does offer a pure browser-based solution called Salient Web-View, many individuals still want the full capability of our installed client delivered via a web portal. For them, i-Minder is the perfect fit.
