

Software Engineer Director

Recognized for more than 30 years of growth in visual data mining technologies, Salient delivers a lightning-speed solution that empowers people and impacts business at all levels. As an industry leader, we attribute our success to our cutting-edge technology and to the contributions of our dedicated, forward thinking employees.

We offer a fast-paced work environment and focus on the professional development of all employees. As part of our generous compensation package, Salient offers paid time off between Christmas and New Years. We foster open communication and are committed to a team oriented environment.

This influential position will be responsible for the overall design and development of our full stack web based dashboard platform. Candidate will lead a department of developers and testers and should have a proven record of leading similar multi-functional teams. To succeed in this position, the candidate must have a drive to succeed with a strong ability to find innovative solutions to complex problems. Qualified candidates must possess a deep understanding of high-performance, multi-tenant, and web application architecture. Previous experience in ASP.NET and IIS is required. Product suite use a variety of programming languages including JavaScript, C#, and C++.

This full-time position will be in Horseheads NY.

Education/Experience
