 - Implementation Speed
 - New Data Update Speed

Governance

- Security
 - SOC2 Type II Compliant Infrastructure
 - Provisioning with granular user-level data security
 - Provider Portal
- Data Integrity
 - Enables collaboration at large scale with global bookmarking and collections

“The support system is awesome. It's always so fast! I also know that if I have a higher level question, I can just reach out to the team and I never feel uncomfortable doing that. It's always well-received. It's just really nice to have that kind of two-way communication.”

Erin Leighton, RHIT
Information Systems & Database Administrator,
Community Care Partnership of Maine
Bangor, ME

Seeing is Believing:
